(Submission of Bid through online)

Sl. No.	Name of the Work	Earnest Money (Rs.)	Period of Completion
1	Design, Develop, Migration of existing Database & Maintaining Social Networking Website & Mobile App namely 'New Town City Network' for New Town Kolkata Development Authority	Rs.50,000/- (Rupees fifty thousand only)	15 months

1. Intending Bidder may download the tender documents from the website <http://wbtenders.gov.in>. All the bidders will have to upload scanned Earnest Money, which may be remitted by separate Demand Draft / Banker's Cheque to be issued from any scheduled bank in favour of the "New Town Kolkata Development Authority" payable at Kolkata and also to be documented through e-filing. The Lowest bidder shall submit the hard copy of the Demand Draft / Banker's Cheque under sealed cover (super scribing the name of work with NleT No) to the Office of New Town Kolkata Development Authority at 03,MAR New Town, Kolkata-700156 with his acceptance letter of the LOI (Letter of Intent). Failure to submit the hard copy with the acceptance letter within the time period prescribed for the purpose may be construed as an attempt to disturb the tendering process and dealt with accordingly legally including blacklisting of the bidder.
2. Both **Technical Bid** and **Financial Bid** are to be submitted concurrently duly digitally signed in the website <http://wbtender.gov.in>
3. Tender documents may be downloaded from website and submission of Technical Bid and Financial Bid will be done as per Time Schedule.
4. The **FINANCIAL OFFER** of the prospective qualified tenderer(s) will be considered only if the **TECHNICAL BID** of the tenderer(s) is found qualified by competent authority of New Town Kolkata Development Authority. The decision of the competent authority of New Town Kolkata Development Authority will be final and absolute in this respect. The list of Qualified Bidders will be displayed in the website.
5. **Scope of Work:**
A dynamic website should be developed for the authority keeping in consideration the vital components related to the day to day functions, updates, information, news releases etc. The selected bidder should assess the exact requirement and design& develop a comprehensive website for NKDA. Regarding the Mobile App (hybrid technology) functional requirement and scope is same as per proposed website.

The major component of the scope includes:

1. Study, Design & Development of the said website.
2. Training and Handholding.
3. Security Audit of the website.
4. Hosting in State Data Centre.
5. Annual Maintenance.
6. Social Media Management.

5.1. Study, Design and Development of Social Networking Website and Mobile App.

The selected bidder should study, assess and visualize the exact requirement at the time of preparation of Software Requirement specification. Content Management System (CMS) is envisaged, allowing the administrators to dynamically update the individual content elements/sections/forms/formats/notices etc. that change regularly, without the constant need of a programmer/developer. The CMS should offer easy administration of NKDA, simply requiring nominated and authorized Users to log-on to a secure area of this Application and complete simple web forms and upload to the centrally controlled database, so that the changes are reflected throughout the Application pages/sections, as applicable. The formats for various reports/notices and other communications like messages can also be designed through this module and uploaded on proposed website. The Development should be done after the consent taken from NKDA authority. The Website should be developed and equipped with interactive & effective features like:

- It should have a dynamic Content Management System (CMS). CMS should be capable of catering multiple users with configurable user access rights. Workflow based lifecycle from content creation to review and approval, and finally publishing of the content, as per Access Control to Users and Groups.
- Website design should be responsive and optimized for mobile users. It should enable ease of configuration and changes to existing GUIs, and support the introduction of new screens in mobile.
- Focus should be primarily on making the mobile interface intuitive and interactive for better reach.
- The website should be Bold, Confident & Active
- As and when required, the bidder will be asked to change content on the portal.
- OTP based verification system.
- The website should also cater adequate functionalities so that the end user targeted to visit the site should be able to get and give all vital information whenever required. The major functionalities include:

Citizens of New Town Kolkata: Website should be focused on targeting the Citizens of New Town Kolkata to connect with city administration.

Mobile First: It should be primarily on making the mobile interface intuitive and interactive. Any approved user can quickly and easily publish online with or without complicated software or programming. The administrators should dynamically update the individual content elements/sections/forms/formats/notices etc. that change regularly.

Scalable & Secure: Website should be scalable and expected to increase capacity to handle greater amounts of load as well as to provide a secure mechanism to prevent from Hacking & Data Security.

Bandwidth Efficient: Various bandwidth efficient techniques should be adopted in order to optimize the bandwidth usages. The optimized use of bandwidth so that the maximum amount of data can be transmitted with the fewest transmission errors.

Consistent brand and navigation: Design templates should be provided for consistent brand and standard navigation across all Web pages

Workflow management: An integrated workflow process should be facilitated for better content management

Flexibility for content developers: Should enable non-technical users to easily publish content

Database-driven: Data should be changed once to be updated throughout the site

Shared resources: CMS should centralize and share all content so that each user should access shared resources such as images, files, audio, video, modules, etc., when needed to achieve ultimate collaboration.

Approval systems: Different levels of access should be given to different users, and the Content MS has mechanisms to ensure content is approved before going live.

Archive capabilities – Any changes should be tracked

Updates: Allows alerts to be set to notify the editor when content should get reviewed, updated or removed. This should help prevent old data from being presented and misinforming users

Search Engine Optimization : Should optimize the website so that search engine users should easily find information; Keyword research, keyword to page mapping, on-page optimization, meta definition should be embedded in the website to improve the website's visibility in popular search engines via organic (natural) search results.

Browser Compatibility: Website should be compatible with popular browsers and operating system.

Checklist: There should be well defined checklist which should be taken care of during the development and execution of the system.

(a) Design Factors

- Standard user friendly theme.

21. Other Terms & Conditions

The Contract Agreement for this engagement would contain the following key clauses:-

21.1. Term of Contract

This will include the period required to deliver the deliverables and other services specified in the Scope of Work, including the duration of the support period (as may be applicable to this engagement).

21.2. Termination

- I. Mature termination of the contract would happen at the end of the tenure.
- II. In case of insolvency of bidder or due to breach of any conditions as prescribed in the Tender.

21.3. Effects of Termination

In the event of a pre-mature termination of this agreement by NKDA, the compensation payable to bidder will be decided in accordance with the Terms of Payment Schedule for the milestones completed services and accepted deliverables.

21.4. Scope of Work and Deliverables

This will be in conformity with the terms of reference specified in the Tender document and shall include the submissions made by the bidder in their proposal and work plans, further refined during the negotiations. Deliverables and milestones shall be established with a process of formal acceptance or such measurable criteria. The Tentative deliverables as follows:

- Timeline.
- SRS.
- Database Design and detailed table structure.
- Design diagram for all input forms.
- Source code with detailed comments.
- Different credential (Web, Mobile, databases, hosting environments etc).
- Security Audit report.
- Training Manual (10 nos hard and soft).
- SLA report.

21.5. Fees and Payments

- (a) The total fees payable to the bidder including a milestone based payment as specified in the terms of reference would be specified. Such payments shall be inclusive of all taxes / levies.
- (b) Payments for additional services in case of change in scope will also be specified.

21.6. Ownership and Audit

Software including source code, licenses, technical documents, Test plan, Test cases & report, SSL certification, Security Audit report and services obtained for the purpose of this engagement shall be copyright of NKDA. Hard & Softcopy of the same to be submitted in each milestone.

21.7. Confidentiality

Bidder and its agents shall exercise professionally reasonable care to maintain the required confidentiality and privacy with regard to data, wherever applicable. NKDA shall retain exclusive **intellectual property rights** to all artefacts to which Department has sovereign rights or **right to use** on a formalized agreement with another party if any cots software has been used in the application.

21.8. Force Majeure

Neither Party to this agreement shall be liable to the other for delay or default in performance of its obligations or any loss or damage which may be suffered by the other directly due to a Force Majeure event provided that the affected Party notifies the other Party of such event and its likely effects and duration as soon as possible and takes all reasonable steps to mitigate the losses/disruption.

21.9. Dispute Resolution

Any dispute or difference, whatsoever, arising between the parties to this agreement arising out of or in relation to this agreement shall be amicably resolved by the Parties through mutual consultation, in good faith and using their best endeavours. Parties, on mutual consent, may refer a dispute to a competent individual or body or institution or a committee for such purpose and abide by the decisions thereon.

21.10. Governing Law and Jurisdiction

This agreement and all questions of its interpretation shall be construed in accordance with the Laws of India with the Courts at Kolkata (High Court) having jurisdiction.

21.11. Scope Changes

Looking into the length of the project implementation period it is very usual to find changes in business logic frameworks. In such scenarios there may be a need of modification of the software modules beyond FRS/SRS/Scope document mentioned in this NleT. It may also be required to develop new software modules beyond the coverage of FRS/SRS/Scope document. In above mentioned scenarios implementing agency should follow a well-defined procedure to manage the various change requests identified during the implementation of the application. Cost for man months are provisioned for such additional software enhancement services. The agency can raise claims under this head as per actual consumption of service duly approved by the client.

21.12. Limitation of Bidder liability towards NKDA

- a) Except in case of gross negligence or wilful misconduct on the part of the Bidder Team in executing the work or in carrying out the Services, the bidder, with respect to damage caused by the bidder to property and/or assets of NKDA or of any of NKDA vendors, shall not be liable to NKDA.
1. For any indirect or consequential loss or damage; and
 2. For any direct loss or damage that is limited to Contract Value.
