Design Concept

The basic design concept is to modify the interiors of cargo containers of available sizes to accommodate a kitchen and a small dining space. The structure acts as temporary module which is easy to move or relocate and modify.

1. Earthy colours

Earthy yet vibrant colours have been used to provide enough contrast against surroundings to be make it visible, but also to complement in appearance. The interior could be built to suit as per the requirements in the tender document and as instructed by the EIC.

2. Icons/ pictograms

Icons adapted are suitable for use with sizes designed to be viewed at distance. Creative info graphics and displays as per the drawings and as instructed by the EIC are to be put up.

3. Smart features

Smart features have been considered to improve the overall user experience. The below are the proposed smart elements

- a) Smart LED Lights
- b) Solar panels and lights
- c) CCTV camera

Proposed Design

- A shipment container of size 5.894mX2.350mX2.6m is used to modify itself into a cafe with,
 - a) Kitchen of size 2.8mx2.24m
 - b) A dine-in space of size 3mx2.24m
- The structure rests on a plinth 12.5mX4.2m and 0.3m height accessed by steps and a ramp.
- The structure has the combination of smart LED light, solar panels on top to supply power for lighting and electric lights which would help provide ample lighting during all the times of the day.

A well-lit and open space keeps the kitchen well ventilated
